Destruction at St. Joseph.

St. Joseph, Mo., June 12.—The Board of Education of this city, having been fully convinced that the Government intends to do nothing to protect the property along the river bank in the south part of the city from the cutting of the stream, has prepared for the worst and has received idds for moving the Floyd School several blocks from the river bank. The lowest bid received was \$10,000, and the matter was taken under consideration.

There is much other valuable property, including Krug's packing-house, and the St. Joseph and Grand Island bridge, which is likely to be greatly damaged or destroyed if the river keeps on cutting, as it has been doing steadily for several years.
